VIA TORTONA 27  
MILAN

## INVITATION

I am invited to be a part of the exhibition: Temporary Museum for new design in Milano.  
I am going to exhibit 3 of my prototype chairs.

## RULES

The development of the products have been an interesting proces, because in a way I was forced to reinvent the design language. I have made my own rules to insure that my statements, democracy, only one materiale ash wood, simple and clear use of technology will be a significant part of the design.

The companies **Kjeldtoft** and **Formfiner** has made the prototypes with excellent craftsmanship.
